

JOB DESCRIPTION & AD: ADVERTISING OPERATIONS MANAGER

Job Title: Network Operations Manager

Location: Mexicali, Baja California

Start Date: Immediately

Apply: Send whatever you think represents you the best - cover letters, resumes, stories, case studies, photos and/or work products – to jobs@socialreality.com

Company Description

Social Reality is a fast growing advertising technology company. Social Reality's businesses, GroupAd and the Social Reality Ad Exchange - SRAX, connects advertisers with audiences across the whole spectrum of digital media. If you're interested in working at the intersection of media, web publishing, advertising and technology at a fast, fun and energetic company, then Social Reality is the right place for you.

We're renegades and rebels and we believe that success is nothing short of doing the impossible.

Candidate Description

We only hire rock super stars. If you're not awesome, we're not interested. This is what awesome means:

You're the best at what you do. You've never met anyone better. And you'd bet your life on that.

You excel at stuff outside of work. You might run marathons, volunteer like crazy, ride a motorcycle cross country, free dive, sky dive, write novels, beat video games in a single sitting, and generally be smart, motivated and driven. But you don't sacrifice work for lifestyle. You love your work so your work is supreme.

You're fun to be around. You're interesting. You've done some really cool stuff and you like talking about it.

Job Description

A Network Operations Manager in Social Reality is responsible for applying design, layout and coding to build a website or sophisticated platform. Will be involved with the technical and graphical aspects of a website - how the site works and how it looks, as well as the maintenance and update of an existing site.

Duties and Responsibilities:

- Monitor all production networks, servers, applications and services and respond to alerts according to standard process
- Respond to escalations from alerting systems, customers or Partner NOCs
- Escalate and communicate issues to system owners and interested parties
- Track and manage Incidents fully to ensure proper Operational information is captured
- Create and maintain knowledge base articles and standard operating procedures and processes
- Open and run conference calls for diagnosis and remediation of issues
- Fully document and communicate shift-turnover reports
- Staff the 24x7 Network Operations Center
- Provide daily, weekly and monthly reporting of key performance indicators

Qualifications:

You are an expert in:

Advanced knowledge of PHP / mysql / javascript / css / HTML. Would be a nice if you know Codeigniter and Stored Procedures.

***IF you don't live in Mexicali, we will make it work, don't worry and APPLY
